Lahore, Pakistan
2022 – 2026

- 3+ years hands-on experience
- Web & mobile builds
- Client-facing projects

LANGUAGES

- Urdu
- English
- German
- Spanish

PROFESSIONAL PROFILE

Full-Stack Developer with 3+ years of experience turning Figma designs into real web and mobile applications using the MERN stack, React Native, and Flutter. I work with international clients to deliver production-ready products, not just prototypes. I focus on performance and clean architecture, so the apps I build load faster, fail less, and are easier to maintain. I have automated data workflows handling over 10,000 records per week and improved application load times by up to 35% for clients.

WORK EXPERIENCE

Freelance Full-Stack Developer

Self-Employed (International Clients) | Jan 2023 – Present

- 10+ web & mobile projects delivered for international clients
- Built apps with MERN stack, React Native, and Flutter
- Improved application load time by up to 35% through performance optimization
- Integrated Stripe for secure online payments across multiple projects
- Added basic monitoring systems to reduce production issues

PROJECTS

SocialVibing - Social Networking & Live Streaming App

Jan 2026 – Present

- Community-based social app with marketplace, live streaming, and real-time chat
- Built with React Native, React.js; used Firebase for auth, database, storage, and push notifications

SCHOLARIQ - AI-Driven Scholarship Assistant

Oct 2025 – Feb 2026

- Platform that collects student data and recommends suitable scholarships
- Includes an AI consultant chatbot and direct form links for applying to scholarships

Tech: React, Python, SQLite

TourEase - Multi-Role Travel Planning Platform

Nov 2025 – Dec 2025

- Travel app with three roles (admin, user, agency) for trips, bookings, and management
- Built with Flutter and Firebase for real-time data sync across all roles

Tech: Flutter, Firebase

FitCore Pro — AI-Powered Fitness Tracking App

Present

- Cross-platform fitness app with automated progressive overload engine and animated exercise guidance system
- Built with React Native (Expo) and Supabase/PostgreSQL; implemented secure workout-logging with row-level security and React Query data layer

Tech: React Native, Expo, Supabase, PostgreSQL

Kids Safari — Educational Mobile App for Children

Present

- Flutter-based learning app for kids featuring interactive modules and child-safe UX design
- Built with Flutter and Firebase; focused on parental controls and content safety standards

Tech: Flutter, Dart, Firebase
